Principal's Foreword

Introduction

At St Philomena School, we value education for education's sake, and not merely as a means to something else. A true education includes so much more than mere knowledge and includes the formation of a child's character.

That is why we have high standards in behavior, manners and courtesy. In many ways, our education philosophy might be termed "old school", yet at the same time modern methods and technologies are employed to the degree that they are useful. Nevertheless, St Philomena's is not about technologies and innovative methods; it is about the children. It is about the development of their individual personalities in such a way as to make full use of the various gifts God has given them, and to share these talents later for the betterment of society.

Our Vision

Our vision is to form spiritually, vigorous, Catholic young men and women who are intelligent, cultured, healthy, vocationally prepared, social minded and patriotic, formed by a well-rounded education.

St Philomena School Annual Report 2025

Our Mission

To cooperate with divine grace for the formation of the true and perfect Christian.

School History

In early 1992, under the auspices of the Society of Saint Pius X, a small group of parents and friends began the monumental task of establishing a Catholic School in Brisbane. Through great generosity, eleven rural acres at 61 Koplick Rd, Park Ridge, were purchased in February 1993.

St Philomena School opened as a primary school on Tuesday 2 February 1999.

The secondary school began in 2012 with separate composite classes of Years 8 and 9 for the boys and girls. Year 10 was added in 2013, Year 11 in 2014 and Year 12 in 2015.

Thanks to the dedication and hard work of the teachers, and the constant support of the parents involved, the secondary school each year went from strength to strength so that the graduation of the first Year 12 class in 2015 will be ever remembered as a special milestone in the life of St Philomena School.

Distance Learning will be launched with Years 7&8 in Term 1 2026.

How computers are used to assist learning

Our computer lab provides our children with the opportunity of becoming proficient in Microsoft Office software, research skills and several practical programs, such as Typing Club and photo imaging. A staff member-issued laptop and a data projector in each classroom, assists teachers to use technology wherever they need in their daily teaching and learning. Our senior students are also issued with a laptop which enables them to use technology in various aspects of their coursework at school and home.

Social climate

St Philomena's has an excellent record when it comes to student behaviour. Parents agree that the environment is a safe one, where bullying is not a common problem. Where complaints arise, the staff takes immediate action and communicates effectively with the parents of all parties concerned.

The school succeeds in instilling a high degree of Christian courtesy in the children in regard to their superiors (teaching and administrative staff, and adult visitors) and their peers.

The students have easy access to a number of priests, trained in pastoral care, and well versed in the school's duty of care policies.

Parental Involvement

St Philomena's prides itself on its record of communication between teachers and parents. By using a homework diary with daily entries, parents can supervise their children's homework and advise the teachers of any particular difficulties. Teachers are further available after school for informal meetings with individual parents to advise them of their children's progress.

The principal, moreover, has an open-door policy whereby parents can drop in to see him at any time of the school day to discuss any issues that may have arisen.
